How the Health Sector is Vulnerable to
Corruption: Case Studies

Mostafa Hunter, Consultant, United Nations
Development Programme (UNDP)

Tim K. Mackey, Director and Associate Professor
UCSD - Extension/UCSD - School of Medicine

**Taryn Vian, Professor & Statewide MPH Program
Director,** University of San Francisco, **Technical
Advisor,** USAID Medicines, Technologies and
Pharmaceutical Services (MTaPS) Program

11:20 a.m. - 11:35 a.m.

Coffee Break

11:35 a.m. - 12:30 p.m.

Why Accountability and Transparency
Matter for Access to Medicines

This session will discuss the effect of pharmaceutical
prices on access to health and at-risk populations and
the evaluation/payment models needed to meet the
challenges society faces. It will also explore how
accountability and transparency in the pharmaceutical
system is vital for access of the population to
medicines.

Workshop Agenda (Day 1)

1:15 p.m. - 2:30 p.m.

Understanding the Change Model: the Case of Bangladesh

This session will focus on the USAID Medicines, Technologies, and Pharmaceutical Services (MTaPS) Program and its predecessor programs, that have assisted countries to strengthen governance to promote evidence-based decision-making, enhance accountability, improve efficiency, and reduce opportunities for corruption. The session will highlight lessons learned at the country level based on reforms to strengthen governance and oversight. These reforms target policies and legislation, organizational structures, systems and procedures, and ethical practices. A deep dive analysis of one country, Bangladesh, will consider the change model underlying an initiative to strengthen governance for contraceptive and reproductive health supply, including the application of technology, changes to strengthen institutions, and capacity building for oversight.

Taryn Vian, Professor & Statewide MPH Program Director, University of San Francisco, **Technical Advisor**, USAID Medicines, Technologies and Pharmaceutical Services (MTaPS) Program

Helena Walkowiak, Senior Principal Technical Advisor, USAID Medicines, Technologies, and Pharmaceutical Services (MTaPS) Program

3:15 p.m. - 4:15 p.m.

Lessons from the Field: Discussions with Representatives from the IFC/ World Bank Group, UNDP and Transparency International

Monique Mrazek, Senior Investment Officer
International Finance Corporation/ World Bank Group

Mostafa Hunter, Consultant, United Nations Development Programme (UNDP)

Karen Hussmann, Independent Expert and Researcher and Member of the Board, Transparency International

4:00 p.m. - 4:45 p.m.

Leveraging Technology, Innovation & Big Data to Combat Health Corruption

In this session we will discuss the application of big data and machine learning approaches to detect corruption-related activities and user perception regarding corruption, including proxy indicators. This will include discussion about types of corruption in healthcare conversations as well as other examples of corruption (e.g. bribery, illegal trafficking and education).

Monique Mrazek, Senior Investment Officer
International Finance Corporation/World Bank Group
